

Artists' Price List 2012 - Inches

Salt of the Earth's specialist fine art giclée print service is dedicated to Artists like you. We use only best quality acid-free Hahnemühle papers, canvas and long-life Ultrachrome K3 pigment inks for crisp details and rich, subtle tones that last for generations. Typically we provide a 48-hour turnaround.

No minimum order. Receive 10% discount for 5 or more prints from any given image.

Mastering your artwork

Before we can print, we must create a Master digital file. 1) We scan at 48 bit multi-pass high resolution. 2) We skillfully colour balance and sharpen details. 3) We make test prints until we reach the optimum match: the Master.

Basic Mastering charges from £40, based on size. But if the scan reveals artwork blemishes - dirt, creases etc, clean up costs £25 per half hour. We'll advise you before proceeding.

Your Master file is stored here. Re-order prints anytime and get exactly the same quality. Unlike many printers we give you the Master on disc, plus a Certificate of Authenticity and a printed Art Log showing your image, code number, substrate and size you ordered.

Note: Scanning sizes - We flatbed scan artwork up to 31" x 43". For very large art, we can arrange digital photostitching.

Printing your artwork

Find your preferred material & shape. We show the maximum art image size in inches that fits each format, allowing a .75 inch. white border all round.

Hahnemühle German Etching

Our most popular Hahnemühle paper. Lightly textured, natural white, sturdy 310 gsm. Great for watercolours, acrylics or pastels.
