

Maximum Image Sizes (centimeters)

Measurements indicate the largest image area that will fit on each of our giclée paper or canvas formats: Classic; Square; Long; or Extra Long.

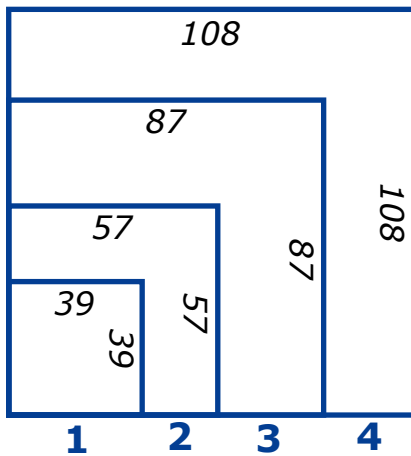

Select the format and size (1,2,3 etc.) and tell us which substrate you prefer.

Paper - We allow a 2cm. white border on all sides for mounting/framing.

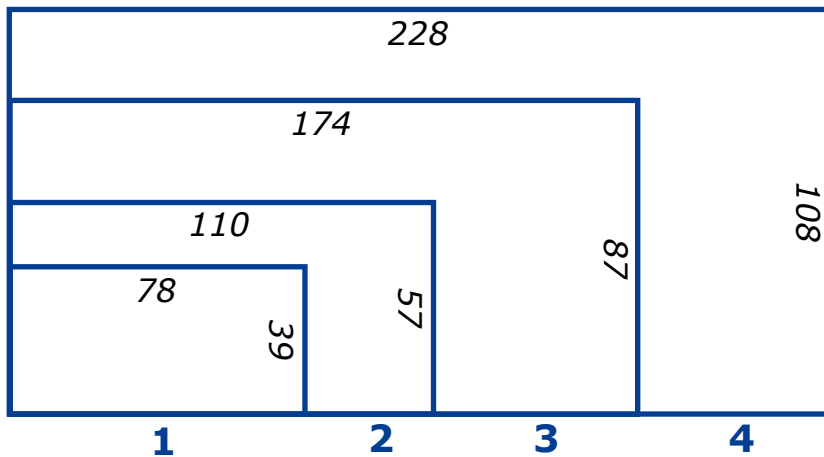

Canvas - Prints that will be wrapped around stretchers will require wider borders (more material). If in doubt, ring and we'll advise.

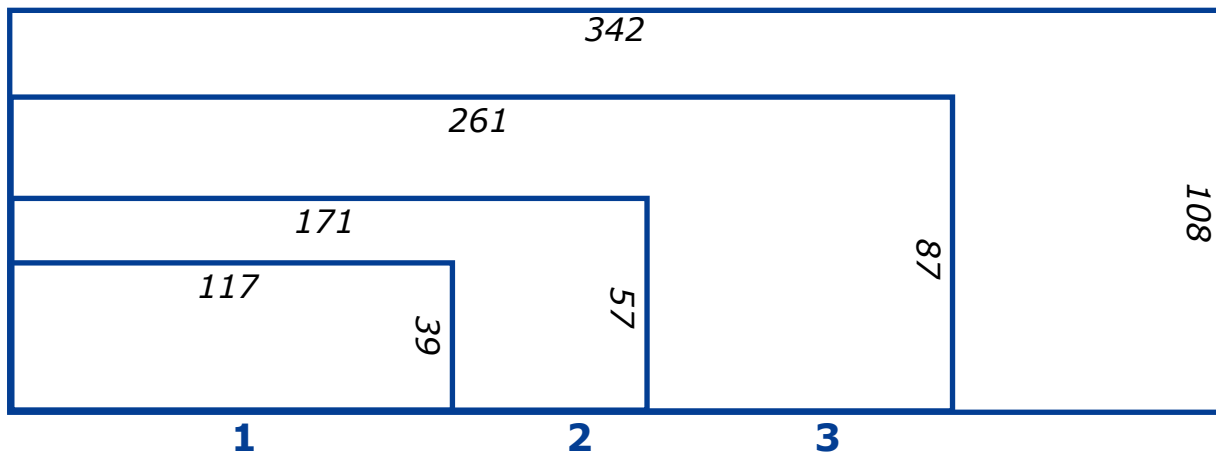

**Classic
